

[Risks and Opportunities Related to Climate Change]

We are striving

(*) For each climate change scenario, we referred to a virtual model bas-

Scenario

1.5 Scenario

2-3 Scenario

Automobile transportation

Due to the tightening of decarbonization regulations and the saturation of consumption in major markets (Europe, the United States, Japan and China), global new automobile sales are expected to decrease by at least 10% from the current level. With the advancement of electrification in automobiles, production areas will become more diversified, and there is a possibility

Risk Management

A large, empty rectangular box with a dark blue border, occupying the upper half of the page. It is intended for the main content of the risk management report.A second large, empty rectangular box with a dark blue border, occupying the lower half of the page. It is intended for additional content or a second section of the risk management report.
